

penergetic g

With the impulse of nature.

Take advantage of biostimulation with Penergetic for homogeneous farm manure.

penergetic g supports the reduction of layers in liquid manure to reduce the stirring effort. This promotes a homogeneous slurry that can be better spread. Aerobic manure gives you a noticeable odour reduction! When used in the stable, you support the welfare of your animals.

- ⊕ *Helps with floating crusts*
- ⊕ *Odour reduction*
- ⊕ *Reduces agitation time*
- ⊕ *Homogenization of manure*
- ⊕ *Better use of farm manure*

* Approved for organic farming in Switzerland in accordance with FiBL's list of operating resources

for liquid manure

...for intelligent agriculture
